

Mturk HW

My mturk study name is called “Understanding Neural Network Simulation” and it is a 7-minute survey that will display a small 3-minute video. The video will show the steps to make a smile classifier feature on Simbrain. Followed by the video will be a few questions to ask participants their understanding and comprehension of the video. These questions will ask about the simplicity and confusion of the situation. The last portion will ask a few demographic questions such as age and education level followed by the suggestions/comments on the video. For this video, I am providing .75 cents per response since there is a video included in the survey. I also added a HIT approval rate of above 99% to make sure workers/participants are providing good responses.

Project Name: 202 Hw This name is not displayed to Workers.

Describe your survey to Workers

Title

Understadning Neural Network Simulation

Describe the survey to Workers. Be as specific as possible, e.g. "answer a survey about movies", instead of "short survey", so Workers know what to expect.

Description

This study will show a video of a Neural Network simulation on a platform called Simbrain. The vi

Give more detail about this survey. This gives Workers a bit more information before they decide to view your survey.

Keywords

survey, online survey, neural networks, machir

Provide keywords that will help Workers search for your tasks.

Setting up your survey

Reward per response

\$ 0.75

This is how much a Worker will be paid for completing your survey. Consider how long it will take a Worker to complete your survey.

Number of respondents

50

How many unique Workers do you want to complete your survey?

Time allotted per Worker

1

Hours

Maximum time a Worker has to complete the survey. Be generous so that Workers are not rushed.

Survey expires in

7

Days

Maximum time your survey will be available to Workers on Mechanical Turk.

Auto-approve and pay Workers in

3

Days

This is the amount of time you have to reject a Worker's assignment after they submit the assignment.

Worker requirements

Require that Workers be Masters to do your tasks (Who are Mechanical Turk Masters?)

☐ Yes ☒ No

Specify any additional qualifications Workers must meet to work on your tasks:

HIT Approval Rate (%)

greater than

99
